TARIFF FORMAT

Sheet Numbering - Sheet numbers appear in the upper right corner of the page. Sheets are numbered sequentially. However, new sheets are occasionally added to the tariff. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between sheets 14 and 15 would be 14.1.

Sheet Revision Numbers - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current sheet version on file with the Kentucky Public Service Commission ("KYPSC"). For example, the Fourth Revised Sheet No. 14 cancels the Third Revised Sheet No. 14. Because of various suspension periods, deferrals, etc. the KYPSC follows in its tariff approval process, the most current sheet number on file with the Kentucky Public Service Commission is not always the tariff page in effect. Consult the Check Sheet for the sheet currently in effect.

Paragraph Numbering Sequences - There are five levels of paragraph coding. Each level of coding is subservient to its next higher level:

- 2.
- 2.1
- 2.1.1
- 2.1.1.1
- 2.1.1.1.1

Check Sheets - When a tariff filing is made with the KYPSC, an updated check sheet accompanies the tariff filing. The check sheet lists the sheet contained in the tariff, with a cross reference to the current revision number. When new pages are added, the check sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). There will be no other symbols used on this page if these are the only changes made to it (i.e., the format, etc. remains the same, just revised revision levels on some pages). The tariff user should refer to the latest check sheet to find out if a particular sheet is the most current on file with the KYPSC.

SECTION 1 - DEFINITIONS

Account Code: A numerical sequence available at a Customer's request which enables identification of account users and which allocates costs of the services accordingly. Account codes may be verified against a pre-defined list of codes maintained by the Company.

Authorized User: Any person, firm, partnership, corporation or other entity permitted to use Customer's account.

Called Station: The terminating point of a call (i.e., the called number).

Calling Card: A card issued by Company which enables the Customer to charge the call cost to a prearranged account. Customer accesses the account by entering a PIN.

Calling Station: The originating point of a call (i.e., the calling number).

Commission: Kentucky Public Service Commission (KYPSC).

Company: Shared Communications Services, Inc.

Customer: Any person, firm, partnership, corporation or other entity which orders or is furnished telecommunications service and is responsible for payment of the charges and for compliance with the Company's tariff regulations.

Customer Dialed Calling Card Station: Service where the charges for the call are billed to a Company-authorized Calling Card.

Day: Rate period from 8:00 AM to 4:59 PM Monday through Friday local time at the Calling Station.

Enhanced Communications Service: Service which employs computer processing applications that act on the format, content, code, protocol or similar aspects of the Customer's transmitted information; provides the Customer additional, different or restructured information; or involves Customer interaction with stored information.

Evening: Rate period from 5:00 PM to 10:59 PM Monday through Friday and Sunday local time at the Calling Station.

SECTION 1 - DEFINITIONS (CONT.)

Holidays: Company-recognized holidays are New Year's Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day. Evening rates apply to "SCS Connect" Program and Program "SCS" calls except when a lower rate would normally apply.

Incomplete Call: Any call where voice transmission between the Calling Station and the Called Station is not established (i.e., busy, no answer, etc.).

Interexchange Carrier (IXC): A carrier certified to provide intrastate telephone service.

LATA (Local Access and Transport Area): A geographic area established as required by the Modification of Final Judgment entered in United States v. Western Electric Co., Inc., 552 F. Supp 131 (D.D.C. 1982), within which a local exchange company provides communication service.

Local Exchange Company: A telephone company utility which provides local telecommunications services to a specific geographical area for business and residential customers.

Message Telecommunications Service (MTS): Commonly known as "long distance service", MTS is the transmission of two-way interactive switched voice communication between local exchange areas for which charges are made on a per-unit basis and wide area telecommunications service or its equivalent.

Minimum Average Timing Requirement (MATR): For 800 Services, if the actual usage falls below the minimum average, a surcharge will be implemented to meet the service requirement.

Night: Rate period from 11:00 PM to 7:59 AM Monday through Thursday and 11:00 PM Friday to 4:59 PM Sunday local time at the Calling Station.

Operator Dialed Calling Card Station: Service which requires the assistance of a Company operator to complete the call and where the charges are billed to a Company-authorized Calling Card.

Operator Station: Service which requires the assistance of a Company operator to complete the call.

SECTION 2 - RULES AND REGULATIONS

2.1 UNDERTAKING OF THE COMPANY

- 2.1.1 Company's services are furnished for the provision of telecommunications which originate and/or terminate within the Common Wealth of Kentucky. Service is furnished subject to transmission, atmospheric and like conditions.
- 2.1.2 SCS is a resale common carrier providing intrastate and interstate long distance message telecommunications service to Customers for their direct transmission and reception of voice, data, and other types of communications.
- 2.1.3 Company resells access, switching, transport and termination services provided by interexchange carriers (IXC).
- 2.1.4 Customer's monthly charges for Company's service are based on the total time Customer actually uses the service, except for 800 Services which have a MATR. For billing purposes, duration of each call will be rounded up in six-second increments unless otherwise specified.
- 2.1.5 Subject to availability, Customers may use account codes to identify the users or user groups on an account. The numerical composition of the codes shall be set by Company to assure compatibility with the Company's accounting and billing systems and to avoid the duplication of codes.
- 2.1.6 Company's services are provided on a monthly basis unless otherwise provided, and are available twenty-four hours per day, seven days per week.
- 2.1.7 Company's services are designed for small to medium-sized business Customers interested in the simplified rate structures provided by Company.

2.2 LIMITATIONS

- 2.2.1 Service is offered subject to the availability of the necessary facilities and/or equipment and subject to the provisions of this tariff.
- 2.2.2 Company reserves the right to discontinue service when necessitated by conditions beyond Company's control or when Customer is using the service in violation of the provisions of this tariff or in violation of the law.
- 2.2.3 The Company does not undertake to transmit messages, but offers the use of its facilities when available, and will not be liable for errors in transmission or for failure to establish connections.
- 2.2.4 Title to all facilities provided by Company under these regulations remains in or is leased in SCS' name.
- 2.2.5 Prior written permission from the Company is required before any assignment or transfer of service and/or account. All regulations and conditions contained in this tariff shall apply to all such permitted assignees or transferees, as well as all conditions of service.

2.3 USE

2.3.1 Services provided under this tariff may be used only for the transmission of communications by the Customers in a manner consistent with the terms of this tariff and regulations of the Federal Communications Commission.

2.3.2 Services provided under this tariff shall not be used:

2.3.2.1 For unlawful purposes; or

2.3.2.2 For any purpose for which any payment or other compensation is received by the Customer, except when the Customer is an entity which holds itself out as being a communications common carrier or resale common carrier or entity which resells the Company's services as part of an enhanced communications service. This provision does not prohibit an arrangement between the Customer and an authorized user to share the cost of the service so long as the arrangement generates no profit for any participant in the arrangement.

SECTION 2 - RULES AND REGULATIONS (CONT.)**2.4 INTERCONNECTION**

- 2.4.1 Service furnished by Company may be interconnected with services or facilities of other authorized communications common carriers and with private systems, subject to the technical limitations established by Company. Any special interface of equipment or facilities necessary to achieve compatibility between the facilities of Company and other participating carriers shall be provided at the Customer's expense.
- 2.4.2 Interconnection between the facilities or services of other carriers shall be under the applicable terms and conditions of the other carriers' tariffs. The Customer is responsible for taking all necessary legal steps for interconnecting customer provided terminal equipment or communications equipment with Company's facilities. The Customer shall secure all licenses, permits, rights-of-way, and other such arrangements necessary for interconnection.
- 2.4.3 Customer is responsible for charges incurred for special construction and/or special facilities which Customer requests and which are ordered by Company on Customer's behalf.
- 2.4.4 If required for the provision of Company's services, Customer must provide equipment space, supporting structure, conduit and electrical power without charge to Company.
- 2.4.5 Customer is responsible for arranging access to its premises at a mutually agreeable time when required for Company to install, repair, maintain, program, inspect or remove equipment associated with the provision of Company's services.
- 2.4.6 Customer must pay for replacement or repair of damage to equipment or facilities of Company caused by negligence or willful act of Customer.

2.6 SERVICE

2.6.1 It shall be the obligation of Customer to notify Company of any interruptions of service. Before giving such notice, Customer shall ascertain that the trouble is not being caused by any action or omission of Customer, not within Customer's control, and is not in the wiring or equipment connected to the terminal of Company.

2.6.2 Credit allowance for interruptions of service which are not due to Company's testing or adjusting, to the negligence of Customer, or to the failure of channels, equipment and/or communications equipment provided by Customer, are subject to the general liability provisions set forth in Section 2.5, herein.

2.6.3 Without incurring liability, Company may interrupt the provision of services at any time in order to perform tests and inspections to assure compliance with tariff regulations and the proper installation and operation of Customer and Company's equipment and facilities and may continue such interruption until any item of noncompliance or improper equipment operation is rectified.

2.7 RESTORATION OF SERVICE

SECTION 3 - DESCRIPTION OF SERVICES OFFERED**3.1 TIMING OF CALLS**

3.1.1 On all calls, except Person-to-Person calls, communications originate when the connection between the Calling Station and Called Station is established. For example, direct dialed long distance calls originate when the Customer accesses the IXC switch by dialing the IXC's access code (10XXX) either directly or through the election of the IXC as the Customer's Primary Interexchange Company in Equal Access service areas, AND the called party answers the call. When the Customer hangs up, the communications charges will terminate for that call.

3.1.2 For Person-to-Person calls, chargeable time begins when the connection is established between the Calling Party and a specified person, station, department, office, or an agreed-upon alternate.

3.1.3 Unless otherwise specified in this price list, the minimum call duration for billing purposes is one-tenth of one minute, with one-tenth of a minute billing increments thereafter.

3.1.4 Any portion of an applicable increment, after the appropriate minimum time for the call, will be rounded upward to the next increment. Calls less than the minimum length will be rounded to the minimum length.

3.1.5 There is no billing for incomplete calls.

3.2 MINIMUM CALL COMPLETION AND MILEAGE CALCULATION

3.2.1 Customers can expect a call completion rate of not less than 95% during peak periods for Feature Groups A (FGA), B (FGB) and D (FGD) Services. The completion rate is calculated as the number of calls completed, including calls completed to a busy or unanswered line, divided by the number of calls attempted.

3.2.2 The Customer's total use of Company's services is charged at the applicable rate per minute set forth below, based on airline mileage between two points as determined by and shown in the airline mileage tables contained in AT&T Tariff FCC No. 10, incorporated herein by reference.
